

NOTES FROM
NSD KAY ELVRUM
Lives in N. Dakota

Her Class was on Mentoring

Kay made \$1,271 a month as a teacher in 1990 the only reason she met with Janet Tade is that she did not know anyone who made over \$100,000 a year. Janet Tade, asked her how much she could imagine making...and she said, sarcastically \$14,000 a month... She said that she remembered that very moment, what she was wearing, what Janet was wearing, where she was and what she was doing...Her point can you imagine giving that moment of mentoring to someone. Because our job is to recreate leaders.

Leaders are people that think bigger. "So may I teach you a new thought." Mentors help people to think a new thought (because we can't make anyone do anything).

BIG THINKERS AND SMALL THINKERS

She did say that we may find we are in the middle of some of these and not to feel guilty if we are in a process of changing....

1. Big thinkers believe that I can create my life.
Small thinkers think life happens.
2. Big thinkers play to win.
Small thinkers play not to lose.
3. Big thinkers on Opportunity.
Small thinkers on the Obstacles
4. Big thinkers think that money is working hard for me.
Small thinkers think it's hard to make money.
5. Big thinkers learn and grow.
Small thinkers think they already know everything.

ASK GOD TO HELP ME THINK BIGGER
